3. FORMULACION DE LAS ACTIVIDADES DE APRENDIZAJE

- Descripción de la(s) Actividad(es)

La mayoría de las instituciones educativas en nuestro país, dentro de sus requisitos de promoción, exigen conocimientos básicos de la lengua inglesa, algunas ofrecen dentro de su pénsul académico algunos niveles de inglés y programas educativos intensivos. No obstante, son más los estudiantes que no dan la importancia necesaria a la materia por considerarla como un relleno, pero al no poder graduarse es cuando verdaderamente se dan cuenta del verdadero valor de aprender un segundo idioma. Los aprendices del SENA, tienen deficiencia en vocabulario, gramática, interpretación de textos entre otros, la cual se evidencia en los resultados de las pruebas diagnóstico aplicadas al ingreso de su formación debido a circunstancias como edad de inicio escolar, colegio de procedencia , condiciones socio-demográficas, motivación,

estilos y estrategias de aprendizaje entre otros las cuales son sustentadas en diversas investigaciones que revisan diferentes factores que interfieren con el proceso de enseñanza aprendizaje donde se destacan factores como la motivación y la actitud frente al aprendizaje de las lenguas, la ansiedad frente a la clase de inglés y al uso de la lengua ,los diferentes estilos de aprendizaje y estrategias usadas al aprender idiomas; uno de estos estudios fue realizado por Diana Díaz en su proyecto de grado, donde describe las dificultades que presentan los estudiantes en el aprendizaje de una segunda lengua como lo son los niveles altos de ansiedad, estrategias meta cognitivas y sociales en menor medida (Díaz, 2014) .

ESL SPORT

There are many different kinds of sports that are undertaken by a wide variety of different people. Some people do sport for their career and other people purely do sport for enjoyment and recreation. Some sports, like cricket, require the use of a lot of equipment, while others need very little in order to successfully play a game in that sport. Some people use public playing fields to play sport for free, while other sports such as squash, tennis, badminton and table tennis are usually paid for on an hourly basis in the comfort of a local leisure centre.

Most sports are played with a round object often known as a ball. Some sports use more than one ball and snooker is one of the unique sports that make use of a number of balls while being played. The game itself is often controlled by an impartial individual known as an umpire in cricket and a referee in sports like football and rugby. Most sports have a duration of not more than a few hours, however some athletic tournaments can last for up to a week and a game of cricket can be five days in duration before a winner is announced.

Some people prefer to watch sport. This can either be done by going to a stadium, a local leisure centre, park or on the television. It is often cheaper to watch sport from the comfort of a person's home than to visit the stadium or a special event. Some sports, such as football and cricket, are really popular in the United Kingdom but not in the USA. In the USA people often play basketball and baseball. However, most countries put aside time to compete in world sporting events such as the football world cup or the Olympics, which occur every four years.

Nowadays, people who suffer from any kind of disability are also encouraged to participate in sport and most sport equipment is adapted to suit the needs of a disabled person. This means sport is something that can be enjoyed no matter the physical ability of the person. The para-olympics takes place a week after the main event and it is equally popular. Participation in sporting activity is encouraged by doctors and at schools given the beneficial impact it has on the health of the individual that participates, and it is for this reason and the competitive nature of individuals that sport remains a very popular activity worldwide.
